INDEX.

ÆCIDIUM, 177.
Æcidium violæ, 779.
African Travel, 836, 839, 840.
Alvarenga Prize, 696.
Anoplonassa forcipata, 700.
Arachnida, 356.
Archaster bairdii, 185.
Archæoceti, 601.
Archæocyathus dwightii, 955.
Archeological Association of the University of Penna., 595.
Archeological Specimens from Tottenville, 1106.
Archean Characters of the Rocks of the Nucleal Ranges of the Antilles, 67. Paper read by Dr. Frazer.
Archiaster agassizii, 185.
Arctic Regions, 269.
Arctomys monax, 547.
Arfvedsonite, 74, 1073.
Argemone platyceras, 278.
Aristida purpurea, 182.
Arius baronii, 771.
crassus, 771.
gagorides, 771.
Arnioceras bodleyi, 560.
hartmannii, 560.
kridioides, 560.
semicostatum, 560.
tardecrescens, 560.
Arsenic at Leadville, 1076.
Arnot, Prof., 59.
Arseniopleite, 73.
Arsenopyrite, 1076, 1193.
Artemisia cana, 177.
canadensis, 177.
abrotanum, 724.
Artiodactyla, 470.
Arthrolycosa antiqua, 132.
Arthur, J. C., Apparatus for Vegetable Physiology, 963.
The Flora of Nebraska, 1057.
and H. L. Bolley, Specific Germs of the Carnation Disease, 962.
Arvicola pallida, 546.
Arachis hypogœa, 149.
Asaphus canalis, 137.
Ascent of Mount Ararat, 65.
Ascents in the Caucasus, 61.
Ascent of Mount Elbruz, 66.
Ascent of Finisterre Mountains, 65.
Ascent of Ixtaccihuatl, 763.
Ascent of Man, F. H. Baker, 975.
Ascent of Nevada de Toluca, 764.
Ascent of the Whene, 65.
Asclepias verticillata, 78.
Ascoceratidæ, 169.
Aspidium thelypteris, 77.
Asplenium filix-fœmina, 77.
Assassination of M. C. Douls, 64.
Assimilation of Carbon by Green Plants from Certain Organic Compounds, 473.
Association of American Agricultural Colleges and Experiment Stations, 1171.
Association of American Anatomists, 212.
Association of Morphologists, 1170.
Asteras briareus, 185.
Asteronyx lovenii, 185.
Astragalus pictus, 77.
Astrobunus nigrum, 683.
Astrogonium granulare, 185.
Astrophyllite, 573.
Astrophyton lamarckii, 185.
Astroscopus anoplus, 375, 538.
Atlas of French Plants, 475.
Atriplex hortensis, 40.
Attenuation of Strata in the Paris and Hempstead Beds, 772.
Atypus niger, 686.
Augite, 1193.
Auld, R. C., Preserving the Purity of the American Bison, 787.
Australasia and Polynesia, 655.
Australia Railway Mileage, 271.
Autotomy in the Crab, E. A. Andrews, 138.
Avalanche in Turkestan, 841.
Azolla caroliniana, 1106.

BACILLUS megaterium, 777.
rubescens, 82.
violaceus, 933.
Bacterium balbianii, 932, 933.
osteophilum, 932, 933.
parasiticum, 932.
termo, 958.
Bahaman Sea Anemones, 80.
Bahrein Islands, 266.
Bailey's Studies of Carex, Bessey, 78.

Baker, F. H., Ascent of Man, 975.
Balæna, 611.
Balænidæ, 610.
Balænoptera, 611.
borealis, 599.
borealina, 613.
emarginata, 613.
goropii, 613.
Balanus convexus, 771.
Balistes aculeatus, 282.
Balticina finmarchica, 184.
Barbour, Notes on the Paleontological Laboratory of the U. S. Geological Survey under Prof. Marsh, 388.
Barkevicite, 575, 1073.
Barnes, C. R., A Key to the Mosses, 1197.
Barysite, 776.
Basalts in Mongolia, 773.
Basidiomyceteæ, 676.
Bathyactis symmetrica, 184.
Batocrinus, 254.
Batrachia, 539.
Batrachomyia, 192.
Batrachus tau, 489.
Bats in the Wyandotte Cave, Indiana, Collett, 189.
Baur, G., Classification of the Testudinata, 530.
Genera of the Cheloniidæ, 486.
Genera of the Podocnemididæ, 482.
New Species of Chelys, 967.
Note on the Genera Hydraspis and Rhinemys, 484.
Prof. Marsh on Hallopus and other Dinosaurs, 569.
Review of Charges Against the Paleontological Department of the United States Geological Survey, and of the Defence Made by Prof. O. C. Marsh, 298.
Beal, W. J., Geographical Distribution of Grasses, 961.
Notes on Root-Tubercles of *Ceanthus americanus*, 962.
and T. W. Tuomey, The Continuity of Protoplasm, 962.
Bedded Mineral Deposits, 768.
Beddard, F. E., Notes on Earthworms, 1200.
Bedot, Prof., Preservation of Siphonophora, 1218.
Beekite, from South Devon, England, 776.
Bell, Flour Moth, 200.
Stem Distribution in Morocco, 839.
Beryl Composition, 1191.
Crystal, 1193.
Bessey, Bailey's Studies of Carex, 78.
Completion of Saccardo's Sylloge Fungorum, 675.
Description of Gremli's Flora of Switzerland, 53.
Extract from De Toni's Sylloge Algarum, 52.
Pax's Plant Morphology, 1082.
Forage Problem on the Plains, 959.
Note on Ellis's "North American Fungi," 277.
Note on Missouri Botanical Garden, 277.
Note on Sach's History of Botany, 371.
Note on "Seymour and Earle's Economic Fungi," 277.
Notice of Photographs of Dr. Parry, 372.
Review of Britton's New Jersey Plants, 1054.
Review of Hackel's "Revision of the Andropogoneæ," 370.
Review of Johnson's "How Crops Grow," 258.
Review of Kellogg's West American Oaks, 1051.
Review of the "New Gray's Manual," 278.
Some Bad Station Botany, 1197.
Some Elementary Botanies, 673.
Watson's Contributions to American Botany, 1199.
Wheat Smut, 1197.
Yellow Water Crowfoot, 475.
Beyrichia devonica, 166.
Bibliography of Economic Entomology, 686.
Bibliographical Catalogue of the Described Transformations of the North American Lepidoptera, 782.
Billet, A., Life-History of Bacteria, 932.
Binocular Microscope, 366.
Biological Results of the Plankton Expedition, 279.
Biological Society of Washington, 296, 385, 595, 691, 1103, 1220.
